Parking Lot & Implementation Teams	Operationalizing the drafts of the above groups	Don Anderson Jim Lapczynski	<ul style="list-style-type: none"> <li>• TBD</li> </ul>

**Overview:**

An organized approach to department function development is critical since the departments currently have areas of both alignment and non-alignment across a vast array of policy and operational topics. Using the core philosophies/high value targets as governing principles, the team will engage subject-specific teams to discuss opportunities to align – to the extent appropriate – various areas of policy and operations.

**Group commonalities:**

- Facilitators should invite subject matter experts as needed and participants will self-select in the group from staff and from the public.
- If your group wants to send out a survey, please coordinate its creation through Sandy Starr.
- Each group needs to create an inventory, using the template that Rick Tully has created.
- Copy Nicole Marx and Latonya White on organization activities. Send them key meeting dates and cc all communication, including document transmittal.
- Each group will create a plan for accomplishments and recommendations, due by the end of August.

**Next steps:**

- Get leads together to set the tone of what is expected (7/19 meeting).
- At the next charter team meeting the team leads will present for 3-5 minutes on their group framework (7/25 conference call).
- Set up website to be repository of work – each group will have separate pages (7/27 launch date).
- Communication to internal staff (TBD).
- Communication to the field explaining and receiving input (TBD).
- Stakeholder advisory happens through BH Leadership and any other applicable standing groups (dates as needed).
